The administration recommends that the Board of Trustees approve an amendment to the 2019-2020 budget for restricted revenue and expenses related to grants.

#### BACKGROUND

Federal, state, and local grants may require amendments for receipt of newly awarded grants or changes to existing grants. These amendments should be processed in a timely manner in order to provide the access to funding to meet the objectives set forth within the grant requirements. This budget amendment request includes the additions to restricted revenues and restricted expenses as a result of new awards and changes to existing grants received during the month of April 2020.

#### **IMPACT OF THIS ACTION**

Approval of the budget amendment will allow the College's staff to implement the programs in accordance with the requirements of funded award amounts.

#### **BUDGET INFORMATION (INCLUDING ANY STAFFING IMPLICATIONS)**

Restricted revenues and restricted expenses will each be increased by \$4,475,232, so the net impact on the College budget is zero.

# MONITORING AND REPORTING TIMELINE

The Office of Grants Management provides continuous monitoring of grant operations, which are included in the annual financial report to the Board of Trustees.

The administration recommends that the Board of Trustees approve a contract with A Status Construction for the South Campus domestic water line upgrades project.

#### BACKGROUND

In January 2019, the Board authorized the competitive sealed proposals (CSP) procurement method for the South Campus domestic water line upgrades project. Project plans and specifications developed by IDCUS, the infrastructure development consulting firm hired by the College to assist with this project, were used as part of the documentation package required for public solicitation of proposals in accordance with the Texas Government Code §2269.151. CSP #20-18 was issued on February 12, 2020 to procure services for this project. Four responses were received and evaluated by a team comprised of representatives from facilities services and the consulting firm. The evaluation and ranking of the submittals were based on criteria published in the solicitation. A Status Construction received the highest overall score.

#### **IMPACT OF THIS ACTION**

This action will provide the authority to replace degraded concrete water pipe at the South Campus with pressure rated PVC pipe. This upgrade will improve service reliability and increase the supply of water available for domestic and firefighting needs.

#### **BUDGET INFORMATION (INCLUDING ANY STAFFING IMPLICATIONS)**

The estimated expenditure for this project is \$819,568 including contingency funds and will be funded from the 2015 Bond Program.

#### MONITORING AND REPORTING TIMELINE

The work will commence upon execution of a contract and is expected to be completed during the 2020-2021 academic year. This project will be monitored by capital projects personnel and program management will be provided by AECOM.

The administration recommends that the Board of Trustees approve the expenditure of additional funds for the purchases of science lab supplies and equipment from multiple suppliers for the College.

#### BACKGROUND

The College purchases science lab supplies and equipment throughout the year to support the operational needs of the various science departments. Due to increased enrollment and in preparation for the new science labs at the Generation Park campus, additional supplies are needed to equip and maintain the labs across all campuses.

Carolina Biological has a contract through the BuyBoard cooperative contracts program, contract #573-18, to provide science lab supplies and equipment. The estimated annual expenditure is \$150,000.

Fisher Scientific has contracts through the US Communities cooperative contracts program, contract #C15-JL-12, and BuyBoard cooperative contracts program, contract #573-18. The estimated additional annual expenditure is \$100,000.

Pasco has a contract through the BuyBoard cooperative contracts program, contract #573-18, to provide science lab supplies and equipment. The estimated annual expenditure is \$300,000.

VWR International (inclusive of Ward's Natural Science and Sargent Welch) has contracts through the BuyBoard cooperative contracts program, contract #573-18, and E & I cooperative contracts program, contract #CNR-01459. The estimated annual expenditure is \$200,000.

The cooperative contracts with these suppliers permit purchases of competitively procured quality lab supplies and equipment at discounted prices and comply with the competitive procurement requirement in Texas Education Code §44.031 and are permitted through Texas Government Code §791.001(g).

#### **IMPACT OF THIS ACTION**

The approval of this request will allow the science departments to purchase consumable supplies and equipment to maintain a quality lab-learning environment for the duration of the current fiscal year.

#### **BUDGET INFORMATION (INCLUDING ANY STAFFING IMPLICATIONS)**

In August 2019, the Board approved expenditures totaling \$300,000 for these suppliers. This request will increase the total amount approved by \$750,000 to a total of \$1,050,000. Approximately one-half of the additional funds will be spent to furnish the labs at Generation Park. The remainder of the request includes annual expenditures with suppliers who were not previously taken to the Board for approval, but due to the need to procure materials for the

The administration recommends that the Board of Trustees approve the expenditure of additional funds for the purchase of cabling services from Network Cabling Services (NCS) for the College.

#### BACKGROUND

NCS has provided services, products, and installation on new construction, renovations, collegewide data closets, direct digital controls network projects, and other various required installations and services. Work progression of certain projects and renovations handled by NCS has been aggressively escalated by combining phases one and two for North Campus Building 10 and phases four and five for South Campus Building 8. The start dates for these two projects were moved up to May 18, 2020 from December 20, 2020 and August 1, 2020, respectively. The College has also assigned more projects than originally anticipated during this fiscal year such as updates to video systems at the North Campus Fine Arts Theater and South Campus Building 11 banquet room.

Request for proposals #17-20 was issued in May 2017 to procure cabling services for the information technology services (ITS), construction and facilities services departments. The Board approved a contract renewal with NCS in August 2019. NCS also has a contract through the BuyBoard cooperative contracts program to provide cabling services, contract #563-18, and complies with the competitive procurement requirement in Texas Education Code §44.031 and is permitted through Texas Government Code §791.001(g).

#### **IMPACT OF THIS ACTION**

NCS has provided a high-standard of service and value to the College over the past few years. The additional funds requested will allow procurement for installation, equipment, and services to meet the needs of the Bond program schedule changes.

#### **BUDGET INFORMATION (INCLUDING ANY STAFFING IMPLICATIONS)**

In August 2019, the Board approved an expenditure of \$3,067,000 for audio visual installation and equipment as well as cabling services. This request will increase the total amount approved by \$340,000 to a total of \$3,407,000. This expenditure will be funded from the ITS, construction and facilities services departments' 2019-2020 operating budgets and 2015 Bond program.

The administration recommends that the Board of Trustees approve the remaining guaranteed maximum price (GMP) package(s) for demolition of the Ball and Anderson Buildings and construction of the Central Campus Classroom Building.

### BACKGROUND

In October 2019, the Board approved a construction manager-at-risk (CMR) contract, CMR #20-01, with Tellepsen Builders, L.P. for the Central Campus Classroom Building. Tellepsen has provided preconstruction services including constructability and cost estimating services to the owner and the design team. In March 2020, the Board authorized the Chancellor to execute GMP Package 1 for the timber structure; mechanical, electrical, plumbing, fire safety, and conveying systems; as well as demolition and abatement of the Ball and Anderson Buildings.

Due to current impacts on supply chains related to the COVID-19 pandemic, the project team believes it is prudent to lock in contracts and delivery dates on long-lead components as their design is sufficiently complete to ensure competitive proposals. Proposals will undergo thorough review to select the best value subcontractors and compile a formal GMP(s). Any subcontracts awarded by the construction manager under this authority shall comply with Texas Government Code Chapters 2258 and 2269 regarding prevailing wage rates and the review of bids and proposals, respectively. To advance construction, limited notices to proceed for work valued up to 20 percent of the budgeted GMP packages will be issued while GMP contract documents are being negotiated and finalized.

#### **IMPACT OF THIS ACTION**

Approval of this action will approve remaining GMP packages in this project up to the budget limit. This will allow design assist, delegated design, and production activities to continue at the required pace while detailed design is completed and manufacturing lead times are increased.

#### **BUDGET INFORMATION (INCLUDING ANY STAFFING IMPLICATIONS)**

The total amount of all GMP packages for this project, inclusive of the \$24,710,091 approved in March 2020 for GMP Package 1, will not exceed \$48,023,847. This value is comprised of budgeted amounts from the Central Classroom Building, Ball Demolition and Anderson Demolition project budgets, all of which will be funded from the 2015 Bond Program. The limited notices to proceed will not exceed \$9,604,770, which is 20 percent of the not to exceed amount.

#### MONITORING AND REPORTING TIMELINE

Completion of the project is expected in fall of 2021. This project will be monitored by capital projects personnel and program management will be provided by AECOM.

The administration recommends that the Board of Trustees approve a contract with Whitley Penn, LLP for financial audit services.

#### BACKGROUND

As required by state and federal laws and college policy, the financial records of the College and Foundation are independently audited on an annual basis. The independent auditors examine the financial statements prepared by the College and Foundation personnel and prepare an opinion on the fair presentation of the financial statements and whether they were prepared in accordance with generally accepted accounting principles.

Request for qualifications #20-23 was issued to procure financial audit services for the College Comprehensive Annual Financial Report (CAFR), subrecipient monitoring related to federal grants, and the San Jacinto Community College District Foundation annual audit. Six responses were received and evaluated by a team of representatives from the business office, budget control, and office of grants management departments who determined the proposal submitted by Whitley Penn, LLP will provide the best value to the College.

#### **IMPACT OF THIS ACTION**

The firm will be engaged to perform the Comprehensive Annual Financial Audit for the College, subrecipient monitoring of federal grants, and the Foundation audit, in accordance with standards prescribed in the Statements on Auditing Standards promulgated by the American Institute of Certified Public Accountants. In addition, the College audit will meet the requirements established by the Texas Higher Education Coordinating Board – Annual Financial Reporting Requirements, in accordance with auditing standards generally accepted in the United States of America, standards applicable to financial audits contained in Government Auditing Standards issued by Comptroller General of the United States, federal awards as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principals, and Audit Requirements for federal awards, and state awards as required by the State of Texas Single Audit Circular.

#### **BUDGET INFORMATION (INCLUDING ANY STAFFING IMPLICATIONS)**

The fee for the three audits to be conducted during fiscal year 2019-2020 is \$144,000 with a nominal percentage increase annually thereafter. The expenditures will be funded from the business office and Foundation department's 2019-2020 operating budget and subsequent year budgets.

#### MONITORING AND REPORTING TIMELINE

The initial two-year award term will commence on May 12, 2020, with renewal options of three one-year terms.

The administration recommends that the Board of Trustees approve the purchase of medical simulation equipment from Gaumard Scientific Co., Inc for the associate degree nursing (ADN) programs at North and Central Campuses.

### BACKGROUND

The ADN programs are seeking to purchase medical simulation equipment and components for the nursing simulation labs. This equipment will provide tools for hands-on training and will allow students the opportunity to work in an innocuous, simulated environment for emergency nursing and health care training scenarios. Simulation is recognized by leading research authorities as an acceptable means for producing realistic clinical scenarios in a controlled setting necessary to maximize learning and improve patient outcomes. The College's ADN nursing programs continue to review quality clinical experiences and the incorporation of simulation activities according to regulatory guidelines to ensure meeting student learning outcomes to prepare graduates for the workforce.

Request for proposals #20-19 was issued to procure medical simulation equipment. Three responses were received and evaluated by a team comprised of representatives from the ADN nursing programs, who determined the proposal submitted by Gaumard Scientific Co., Inc would provide the best value to the College.

# **IMPACT OF THIS ACTION**

The simulation equipment will be housed in the simulation and nursing skill labs and will be utilized to create unique training scenarios as well as simulated health care emergencies. The equipment will also provide realistic anatomy and clinical functionality for simulation-based education and will credibly test students' decision-making and clinical reasoning skills during realistic patient care training scenarios. Incorporating additional simulators in the learning environment will allow the opportunity for additional student practice while addressing clinical shortages. It will also provide ADN nursing students the opportunity to meet the required number of clinical hours on campus instead of at hospital-based locations.

#### **BUDGET INFORMATION (INCLUDING ANY STAFFING IMPLICATIONS)**

The expenditure is \$367,200 and will be funded from the Nursing Shortage Reduction Program grant.

#### MONITORING AND REPORTING TIMELINE

The equipment is expected to be delivered and installed by August 31, 2020. Equipment installation and commissioning will be carried out by the College's ADN faculty and staff.

The administration recommends that the Board of Trustees approve the expenditure of additional funds for the purchase of maintenance, repair and operational (MRO) equipment and supplies from Grainger for the College.

#### BACKGROUND

Grainger is utilized college-wide for the procurement of various MRO items including safety and janitorial supplies and equipment. Grainger has contracts through multiple cooperative contract programs to provide MRO equipment and supplies including OmniaPartners contract #R192002 and E&I contract #CNR-01496. These contracts comply with the competitive procurement requirement in Texas Education Code §44.031 and are permitted through Texas Government Code §791.001(g).

#### **IMPACT OF THIS ACTION**

The COVID-19 pandemic has put an unprecedented toll on the College as we fundamentally altered our operations to meet the needs of our community. Personal protective equipment, disinfection, social distancing, and crowd and entry control mechanisms have all been modified to meet the recommendation of the Center for Disease Control and Harris County Public Health. Grainger is a reliable source for a wide variety of equipment and supplies essential for regular day-to-day operations as well as modified operational procedures implemented in order to respond to the pandemic.

#### **BUDGET INFORMATION (INCLUDING ANY STAFFING IMPLICATIONS)**

In August 2019, the Board approved an expenditure of \$525,000 for MRO equipment and supplies. This request will increase the total amount approved by \$625,000 to a total of \$1,150,000. This expenditure will be funded from the various departments' 2019-2020 operating budgets.

The administration recommends that the Board of Trustees approve budget transfers for 2019-2020 which have been made in accordance with State accounting procedures.

### BACKGROUND

Adoption of the budget by the Board of Trustees prior to September 1 of each year serves as the authorization to expend funds for the next fiscal year. The budget is adopted by functional classification (or cost elements: Instruction, Academic Support, Student Services, Institutional Support, and Operation and Maintenance of Plant) as defined by the National Association of College and University Business Officers (NACUBO). Realizing that the budget is a living document that reflects the evolving needs of the College in terms of meeting goals and objectives, occasional movement of budgeted funds between cost elements is desirable and warranted. The budget transfers under consideration represent previously authorized expenditures that are requested to be reclassified from one cost element to another cost element.

# **IMPACT OF THIS ACTION**

Approval of the budget transfers will allow the College to more effectively utilize existing resources in fulfilling its instructional objectives.

#### **BUDGET INFORMATION (INCLUDING ANY STAFFING IMPLICATIONS)**

This request is a reclassification of existing authorizations.
